

E-invoicing developments timeline

Release: April 2024

About this document

Tax administrations are increasingly adopting technology tools to automate the tax reporting process, from e-invoicing to digital reporting and e-accounting. This trend is leading to a more digitalized world of taxation and compliance. Governments are continuously issuing new regulations and requirements for taxpayers, making it essential for businesses to have a proactive approach to these changes with a defined tax technology strategy that includes real-time reporting capabilities. This can provide organizations with cost savings and efficiencies. To help businesses stay up-to-date with tax administration developments in e-invoicing, digital reporting, and real-time reporting, we have created this e-invoicing calendar timeline. We hope it proves useful to you.

Kathya Capote Peimbert

Global E-invoicing and Digital Reporting Lead

E: kcapotepeimbert@kpmg.com

Lauren Tallman

Global E-invoicing and Digital Reporting Project Manager

E: lmcevoy@kpmg.com

How to use the document

- Click on the forward arrow in the top right corner, or the circular button above, to begin.
- Click on the forward arrow to advance to the next slide (or scroll).
- On the 2024 page, click on each month to view the developments for that month.
- On the pages for 2024 to 2028, click on each year to view the upcoming developments for that year.

Note: You can navigate through all the months and years without clicking on the close button. Use the close button to hide contents on the right and countries and months on the left.

The content included in this timeline is provided for general informational purposes. Some of the statements included herein are pending confirmation from corresponding authorities. Therefore, they may change in the future.

E-invoicing developments 2024

List of countries with developments for 2024-2028

This page includes the list of countries that have announced developments, but they have a pending effective date (TBD).
Click on the year to visualize the developments.
